

Pneumatic Product Summary

Model	Appearance	Description	Maximum Flow Rate	Risk Category		
				2	3	4
HPS-4A		Safety Pressure Monitor Series. Compliments Hydraulic safety control circuits by confirming system depressurisation	* Risk category dependant on complete circuit configuration			
PBS411M		Single Monitored Pneumatic 1/2" Valve and safety manifold. Low consumption coils.	Cv 3.7 P to A	●		
PBS412M		Dual Pneumatic 1/2" Monitored Valves on a series ported manifold. Low consumption coils.	Cv 3.7 P to A	●	●	●
PBS512M		Dual Pneumatic 3/4" Monitored Valves on a series ported manifold. Low consumption coils.	Cv 5.5 P to A	●	●	●

Fluidsentry Pty Ltd ACN 109 094 975
